

DRAETHEN, WATERLOO & RUDRY COMMUNITY COUNCIL

LETS SCARE UP SOME SMILES

within our communities whilst tackling the serious issue of traffic speed.

Traffic calming research shows that driving through interesting villages slows people down. Coming up to harvest season we thought a Draethen Waterloo & Rudry villagers scarecrow competition, creating an alternative villager community, would act as an effective traffic calming measure for our area.

People of all ages can take part and let their imaginations run wild to create wonderfully weird Wurzels or arresting Aunt Sally's to cheer up and brighten our communities. We will share your creations on our Website and FaceBook pages for everyone to see and you could possibly win prizes for your fantastic efforts too.

This activity is not only to tackle the very serious issue of traffic calming, so desperately needed due to vehicles speeding through our villages, it will also pleasantly occupy both youngsters and adults alike during our coronavirus, social distancing, summer holidays and it gets people smiling as they go about their daily drive, exercise run or walk.

Competition Time

If you want to take part please contact clerk@dwrCouncil.co.uk or link to our  to let us know where to find your scarecrow villager for judging. Scarecrow villagers must not be placed on the highway. Judging will take place at the end of September.
